

Name:

Problem of the Week: Count the Squares

April 17, 2008

Find all the squares in the figure on the left.

Can you prove that you have found them all?

Answer:

CHECKLIST for the Problem of the Week

- Write the answer for the problem in a sentence.

- Write a detailed explanation of what you did.
Remember: Imagine that someone is standing next to you and tell that person what you are thinking, and doing. Show all your work in this log. (Do not work on scrap paper.)

- Write if you had any difficulties _____

- Write if you had any help _____
If yes, who helped _____ Write how that person helped.

- Write the strategy used: _____

- Checking my answer:** I checked my answer to be sure that it worked.
(Remember to highlight, and to write what you did in your checking.)
